

Observation & Experimentation

Lonnie Broden, Wendy Frank
and Han Huisman

On View: October 6 - November 12

Reception: Thursday, October 6, 6-8pm

Observation and experimentation have been hallmarks of scientists for centuries. But the processes of observing something to gain information and experimenting with materials, ideas and practices have been part of artists' repertoires even longer.

In **Observation & Experimentation**, Lonnie Broden, Wendy Frank and Han Huisman demonstrate how innovation is alive and well in the arts.

Gallery Hours

Wednesdays - Fridays 10am - 4pm, Saturdays 12pm - 4pm
